		$574 70

Report of District Superintendent

Members of the School Committee:

Gentlemen: I have the honor of submitting to you and through you to the citizens of the town a report relative to the schools.

In the report of last year considerable stress was laid upon the matter of consolidation and transportation. The same plan has been carried out this present school year with some very satisfactory changes as regards transportation.

Mr. Lomberg, who transports the pupils, has purchased a very satisfactory conveyance which meets the necessary requirements for a transportation vehicle. The children are carried in a covered vehicle, so they are protected from rain and cold in severe weather. A quantity of straw is placed in the bottom of the vehicle to keep the children's feet warm and they are urged to take hot bricks to place beneath their feet. Robes are furnished by Mr. Lomberg for covering the pupils. If pupils desire they have the opportunity of furnishing more robes for their own personal use. During the present winter the body from the transportation wagon has been placed on sleigh runners thus it will be seen that at no time of the year are the pupils exposed to inclement weather while being transported to and from school.

There being only a small number of pupils in District No. 1 and they all being boys of sufficient age and size to walk to school, arrangements were made for them to furnish their own way of reaching school and they are paid so much for each day's transportation of themselves.

According to the method of making rebates for transportation, allowance is made according to the number of weeks pupils attend school. Therefore, those having pupils whose conveyance is furnished should keep their children regularly in school, otherwise the town is expending money for transportation for which they will not receive a rebate.

At the present time it is impossible to state whether or not it will be advisable to consolidate all the schools on the east side of the town another year owing to the fact that there will probably be many more pupils in this part of the town another year. Without doubt two schools will be all that are necessary

At present there are two very satisfactory out-buildings at Districts No. 1 and 3. In view of the fact that both out-buildings at Districts No. 2 and 7 are in very unsatisfactory condition it would seem advisable to replace these out-buildings by moving these from Nos. 1 and 3. This matter should be attended to at once.

Both buildings now in use need new stoves. It would seem advisable to secure more up-to-date heating systems. Heaters with jackets and foul air extractors are now used in several schools in this supervision district where they are giving very satisfactory results. This matter should receive attention at once owing to the fact that prices are sure to advance and a delay may mean an unnecessary expenditure.

At the present time our schools are very well supplied with the best of text-books. It will not be necessary to buy any new sets during the present year. From time to time it seems necessary to purchase a few books to supply pupils that move into the districts but other than this our expenditure for books will be very small. Schools are now supplied with all the grades of paper and other supplies that will be needed for the present school year. Without doubt such supplies will be more expensive another year than when our present supply was secured.

In order that all pupils throughout the state might be furnished with necessary credentials when going from one school to another it was necessary during the present year to make out two cards for each pupil's record. When a pupil moves out of his present school district to another he should secure from his teacher the necessary card to take to his next teacher. By so doing he will be the more likely to continue in the next school in the same grade as in the school he left.

It is the purpose of the present Commissioner of Education that each year some one special school subject be emphasized in the schools throughout the state. Last year spelling

was the subject upon which most stress was laid. New spelling books were furnished pupils, reference lists were furnished teachers, spelling matches were held in the schools, examinations were given and one pupil, Irene Bentley, took part in a County Spelling Contest held at Bennington in connection with the County Educational Association Meeting. The spelling ability of the pupils has shown a marked improvement. This work will now receive considerable attention in hopes that the spelling ability of the pupils may be equal to if not greater than that of any former generation.

In order to encourage pupils in our schools to do "their bit" in the present war the "Green Mountain Guards" was organized last spring. It was possible for any pupil to become a "Guard" if he or she would agree to raise or assist in raising farm produce. The larger part of the pupils in town enrolled for the work. Some pupils were given part time from school to assist in production of crops. At the close of the season all pupils who had carried out this work in production were given "Green Mountain Guard" pins as well as a certificate of recognition for their work signed by the Commissioner of Education and the Governor of the State. It is probable that similar work, more definitely outlined and supervised, will be carried out next spring and summer.

During the past year it has been possible to retain the same teachers in our schools for the three terms. Results have been most satisfactory in the regular school work as well as in special lines of work I have wished to have carried out by the teachers. The teachers have not questioned whether or not they were overpaid or underpaid for their services but it has ever been their desire to secure satisfactory results and to be of the greatest service possible. I congratulate the teachers upon the good work done and bespeak for them the undivided support of every citizen.

Respectfully submitted,

JOHN D. WHITTIER,
Dist. Supt. of Schools.

South Shaftsbury, Vt., Jan. 31, 1918.

WARNING

The legal voters in Town Meeting in the Town of Sandgate are hereby warned and notified to meet at the Town Hall, in said Town of Sandgate, on the 4th day of March, 1919, at 10:00 o'clock in the forenoon to transact the following business:

Art. 1.—To choose a Moderator.

Art. 2.—To hear town report read.

Art. 3.—To elect a Town Clerk.

Art. 4.—To elect a Town Treasurer.

Art. 5.—To elect one Selectman for three years.

Art. 6.—To elect one Overseer of the Poor.

Art. 7.—To elect one First Constable and Collector of Taxes.

Art. 8.—To elect one Lister for three years.

Art. 9.—To elect two Auditors, one and three years.

Art. 10.—To elect one Trustee of Public Money.

Art. 11.—To elect one Grand Juror.

Art. 12.—To elect one Road Commissioner by ballot

Art. 13.—To elect a Defender of Suits against town and prosecutor of same.

Art. 14.—Shall license be granted in this town? Shall license of the fifth class be granted in this town?

Art. 15.—To see what taxes Town will vote for the year 1919.

Art. 16.—Shall taxes be paid to Town Treasurer, and when?

Art. 17.—To vote how much town officers shall receive per day for services.

Art. 18.—Will the town vote to have medical inspection of schools?

Art. 19.—Will the town vote to avail itself of the provisions of an act of the General Assembly entitled, an act to facilitate the assessment and collection of poll taxes.

Art. 20.—Shall town reports be printed?

Art. 21.—To transact any other business proper to be done at that time.

Dated at Sandgate, Vt., this 10th day of February, 1919.

FRED LOMBERG,
FRED BENTLEY,
JOHN TORRENS,
Selectmen of Town of Sandgate.

FRANK BENTLEY,
CHAS. E. LINDSEY,
M. Z. HURD,
Auditors.

Report of the District Health Officer

To the Voters of Sandgate, Vermont:

In rendering this, my first annual report, I wish to call attention to a few features of the new health law.

CONTAGIOUS DISEASES: Physicians are now required to immediately quarantine all cases of contagious disease which they attend and to at once report the facts to the district health officer. The penalty not to comply with this requirement is a fine of not less than twenty-five and not more than one hundred dollars for each offense. Where no physician is in attendance the head of the family who knows that a case of contagious disease exists in his household is required by law to at once report the facts to the district health officer. Under a regulation of the State Board of Health, school teachers are also required to report to the district health officer all cases of contagious disease, which may come to their notice, occurring among their pupils or in families from which their pupils come, and are subject to a penalty for failure to do so. Teachers are instructed that they must not allow children to attend school who are afflicted with lice or other vermin, or any contagious disease of any description or when they know them to have been exposed to a contagious disease until the time expires for them to develop it. This period for measles and whooping cough is fourteen days; mumps and chickenpox is twenty-one days. When families are in quarantine, for measles, whooping cough, mumps or chickenpox, teachers must not allow pupils from such families who *have not had* the disease to attend school during the time of quarantine. In cases of known exposure to scarlet fever, diphtheria, etc., the teacher must not only bar the pupil from school but immediately notify the District Health Officer of all the facts.

Much has been accomplished in the way of educating the public as to these requirements which must in the future be rigidly enforced. The public has a right to expect protection from contagious diseases and the co-operation of all good citizens is earnestly requested to the end that these expectations may be realized. With every one helping contagious diseases can be suppressed to an astonishing degree.

MEDICAL INSPECTION OF SCHOOLS: Under the new law if any town votes to have medical inspection of school children the work is done by the state under the direction of the district health officer free of all expense to the town. Every child in every school is examined every year for physical defects such as defective eyesight, or hearing, adenoids, enlarged tonsils, defective teeth, disease of lungs or heart, spinal curvature, etc. No treatment is given but an accurate card record is kept of each case and the parents are urged, under a follow-up method, to have the defects remedied. Something may be done later to assist parents who are financially unable to have the defect remedied. The importance of this work is attested by the fact that over 38% of the young men who tried to enlist or were drafted in the late war were found physically unfit for military duty. The government authorities estimate that the vast majority of these defects had they been known to exist could have been corrected in childhood. The percentage of rejection of young men from the cities of Boston and New York, where medical inspection has been in vogue for years, was much below that of young men from Vermont who ought by nature of their environment, to have been physically superior in every way. It is to be hoped, and is confidently expected, that every town in Vermont will vote as a number have already for this improvement. The children of today will be the men and women of tomorrow and are entitled to good health.

LOCAL BOARDS OF HEALTH: The law provides for local boards of health for each town and city composed of the selectmen in towns or aldermen in cities, one of whom is elected

chairman of the board. Complaints as to nuisances dangerous to health should be made to the local board of health or the district health officer who by virtue of his office, is a member and secretary of each local board. Local boards of health should be able to keep in close touch with health conditions in their towns, can be of great assistance in many ways to the health officer, and in many matters act independently of him.

I wish to take this opportunity to thank the local Board of Health for the splendid spirit of co-operation that they have shown.

It is expected that the next annual report will refer to school houses and their conditions and other matters of interest and also a tabulated statement as to the occurrence of contagious diseases in the town for 1920.

Respectfully submitted,

H. W. ELIOT, M. D.,
District Health Officer.

Manchester, Vt., February 1, 1920.

WARNING

The legal voters in Town Meeting in the Town of Sandgate are hereby warned and notified to meet at the Town Hall in said Town of Sandgate on the 2nd day of March, 1920, at 10 o'clock in the forenoon to transact the following business:

1. To choose a Moderator.
2. To elect a Town Clerk.
3. To elect a Town Treasurer.
4. To elect one Selectman for 3 years.
5. To elect one Overseer of the Poor.
6. To elect First Constable and Collector of Taxes.
7. To elect one Lister for 3 years.
8. To elect three Auditors, for 1, 2, 3 years.
9. To elect one Trustee of Public Money.
10. To elect one Grand Juror.
11. To elect one Road Commissioner by ballot.
12. To elect a Defender of Suits against town and prosecutor of same.
13. To see what taxes towns will vote for the year 1920.
14. Shall taxes be paid Town Treasurer and when?
15. Shall Town Clerk receive salary for services as per Section 1 of Public Acts of 1919.
16. Will the Town vote to have medical inspection of schools?
17. Will the Town vote to avail itself of the provisions of an act he General Assembly entitled, an act to facilitate the assessment collection of poll taxes.
18. Shall Town Reports be printed?
19. To transact any other business proper to be done at that time.

Dated at Sandgate this 10th day of February, 1920.

FRED LOMBERG,
FRED BENTLEY,
ROLLIN C. SMITH,
Selectmen Town of Sandgate.
